

How To Reskin

Add Videos

To replace existing videos -

- Open *VideoWallpaper/Videos* folder. Replace existing video files with your own videos. Make sure you keep the file names and extension same.

Set Video Titles and Descriptions

- Open *VideoWallpaper/Helpers/Helper.swift* file. To set video titles, update lines 20-24 -

```
let titleVideo1 = "Amazing Sunset"
let titleVideo2 = "Ocean Waves"
let titleVideo3 = "Aquarium"
let titleVideo4 = "Solar Eclipse"
let titleVideo5 = "Wild Deer"
```

- To set video descriptions (shown under preview box of menu screen), update lines 27-33 -

```
let previewTexts = [
    "An amazing sunset video",
    "Ocean waves video",
    "Aquarium video",
    "Solar eclipse video",
    "Wild deer video"
]
```

Change Graphics

To replace background and other graphic assets -

- Open *VideoWallpaper/Graphics* folder. Take a look at each image and replace those with your own version (make sure file name & image size remain same)

Change Launch Image, App Icons & Top Shelf Images

From Xcode project, navigate to *VideoWallpaper/Assets.xcassets*. Replace following items -

- App Icon - Large
- App Icon - Small
- Top Shelf Image
- LaunchImage

Check the following link to know about image sizes

<https://developer.apple.com/tvos/human-interface-guidelines/icons-and-images/>

Change Sounds

You can update the sound files from *VideoWallpaper/Sounds* group. Make sure you keep the file names & extension same.

Change Bundle Identifier

1. Select *VideoWallpaper* target
2. From General tab, change the **Bundle Identifier** field

Change App Name

In order to change the App Name (as displayed on device), you need to follow these steps -

From Xcode project, select *VideoWallpaper/Supporting Files/Info.plist* file. Then find the "Bundle display name" row and change the corresponding value.

Create In-App Purchase Items

There are four In-App Purchase items. To set IAP items -

- Login to your itunesconnect account
- Create a new app (or select the app if you have already created the app)
- Select In-App Purchases
- Select "Create New" and follow the steps to create a non-consumable In App Purchase item.
- Once you successfully create new In App Purchase item, copy and save the product id.
- Create three other non-consumable IAP items.

If you need further instructions, then you can check the official Apple documentation -

https://developer.apple.com/library/ios/documentation/LanguagesUtilities/Conceptual/iTunesConnectInAppPurchase_Guide/Chapters/Introduction.html

Update In-App Purchase Identifiers

To update IAP identifiers, open *VideoWallpaper/Helpers/Helper.swift* file. Change lines 14-17 -

```
let idlapUnlockVideo3 = "com.atikur.VideoWallpaper.unlockVideo3"
let idlapUnlockVideo4 = "com.atikur.VideoWallpaper.unlockVideo4"
let idlapUnlockVideo5 = "com.atikur.VideoWallpaper.unlockVideo5"
let idlapUnlockAll = "com.atikur.VideoWallpaper.unlockAll"
```

~Enjoy
~Good Luck
